

Third cat wish – helping cats in shelters and foster care

December 15 is the starting day for the third event called „Cat’s wish“. This charitable event has a goal to help raise food and money for cats in shelters and foster care all around the Czech Republic.

First round of this event took place at Christmas 2010, and raised 96 000 czk, the Easter round was even more successful and brought 151 000 for 306 cats. This time there will be around 18 organisations from all regions of the Czech Republic.

And how can you help? It’s simple- visit our website www.kociciprani.cz and choose a cat or two (three, four...), which you want to help. You will find here pictures of cats and their stories. In the profile of each cat, there is also its wish. Usually food, vaccination or maybe a cat bed. You can either send money for the gift to the shelter account or buy the present and send it via e-shop, or bring it to the shelter yourself. The event goes on until January 6. Then we will send you photo of „your cat“ with the present.

The website is only in Czech, in case you need translation or have any further questions, contact Františka Kernová on frantiska@devet-zivotu.cz

All participating organisations are NGO’s which don’t have any employees, all their care and work for cats is unpaid and is mainly financed by members and volunteers of these organisations and private donors. There is no financing from the state or towns. Most cats are waiting for their new owners in foster homes. This means, they are not locked in small cages and there is no risk, that they would be put asleep after certain period. All the shelters are no-kill shelters. Most of the cats you see on the web can be adopted. They are vaccinated and adult animals are also spayed or neutered.

This event is organised by OS Devět životů (NGO for protection of cats). There are no operating costs, every single crown is used for cats.
